TITANIC: A MODERN MYTH

1 The Titanic tragedy quickly became a myth, maybe because its owners had said
2 that the ship was “unsinkable”, a belief that was proved patently1..... just
3 four days out to sea...

42..... noon on April 10, 1912 the R.M.S. Titanic set sail on her maiden
5 voyage from Southampton, England for New York. She was the.....3....., most
6 luxurious ship4..... built and the passenger list included aristocrats and
7 millionaires,5..... hundreds of poor immigrants heading for a new life in
8 America. Most.....6..... never see it.

9 Four days out, at 11:40 p.m., she struck an iceberg. The iceberg bumped along
10 the hull for approximately 100 metres, gouging out a hole that was little larger
117..... the size of a desk. But it was enough.8..... the ship’s “double
12 hull” and the so-called “water-tight compartments”, the seawater gushed in. Two
13 and a half hours9..... the Titanic had submerged in the freezing waters of
14 the Atlantic and sank for her final resting place. Of the 2,208 passengers and
15 crew on board, only 650 made it to the lifeboats, another 55 managed to survive
16 in the icy waters until they were rescued. The remaining one and half thousand
17 died. It was a tragedy that soon became a modern myth.10..... newspapers
18 were full of stories of how the orchestra continued to play, even as the ship was
19 going down. Later we learned that there would never been enough lifeboats for
20 everyone and it was the first-class passengers who were given priority. We also
21 heard how the first lifeboat was almost empty; it was occupied only by the
22 directors of the White Star Line and their friends.
