**Llengua estrangera: Anglès**

## **SOLUCIONS**

**Per accedir a tots els cicles formatius de grau superior**

## Prova d'accès a CFGS. Part Comuna. Anglès. Convocatòria ordinària. 2004. Solucions.

### TEXT COMPLERT.-

#### EATING PROBLEMS

1           **What are eating problems?**

2           Many children have problems with eating at some time in their lives (1). These  
3   **1**       problems can range from not liking certain foods (which happens (2) to most  
4       people), to serious eating problems which may come (3) from medical or  
5       emotional troubles.

6           **How can eating problems start?**

7           Scientists think eating problems can start in a lot of ways. Some scientists think  
8       that you are born with them (4). Others believe your eating problems are learned  
9       from people around you, and from wanting to be like very thin fashion models.  
10   **2**      Also, people who don't feel in control of their lives turn to eating, as it's one thing  
11       they do have power over. Eating problems can also start because of their  
12       problems, such as unhappiness at (5) home or school, someone you know dying,  
13       or a mixture of these and other things.

14          **What is anorexia?**

15          It is a medical condition and its proper name is anorexia nervosa. People with  
16       anorexia nervosa avoid (6) eating and lose a lot of weight. They often feel fat,  
17   **3**       even when they are very thin. They may use other ways of staying thin, such as  
18       taking laxative tablets (which (7) is dangerous and makes you go to the toilet  
19       more often) or by doing too much exercise. They can become very weak, and  
20       without special help some people with anorexia can die.

21          **What is bulimia?**

22          It is also a medical condition and its proper name is bulimia nervosa. People with  
23       bulimia eat lots of food (called binge eating) and then make themselves (8) sick to  
24   **4**       get rid of what they've eaten. People with bulimia may not look underweight and  
25       so can find it easy to hide (9) their eating problems. Binge eating and vomiting  
26       can eventually do serious damage to the teeth, heart, kidneys and muscles.

27          **What is compulsive eating?**

28          This is when people eat much more than their bodies need, for a long period of  
29   **5**       time. Compulsive eating can also start from people using food to (10) comfort or  
30       distract themselves. This can lead to someone being overweight and having  
31       serious medical problems.

## SOLUCIONS.-

- A)
1. a) lives
  2. b) happens
  3. b) come
  4. d) them
  5. c) at
  6. a) avoid
  7. d) which
  8. c) themselves
  9. b) to hide
  10. d) to

- B)
1. serious
  2. thin
  3. condition
  4. proper
  5. need

- C)
1. b)
  2. a)
  3. c)
  4. c)
  5. d)

## PAUTES DE CORRECCIÓ.-

El total de punts que es poden obtenir és de 10. Estan distribuïts de la següent manera:

Número de pregunta	Tipus de correcció	Punts màxims
A)	<b>OBJECTIVA.</b> 0,25 punts per resposta encertada	2,5
B)	<b>OBJECTIVA.</b> 0,25 punts per resposta encertada	1,25
C)	<b>OBJECTIVA.</b> 0,25 punts per resposta encertada	1,25
D)	<b>SUBJECTIVA.</b> Excel·lent/molt bona..... fins a 5 Bona..... fins a 4 Acceptable..... fins a 3 Pobra..... fins a 2 Molt pobra..... fins a 1	5
